

Weekly Report

2018.1.15-2018.1.21

0. Done

Analyzing and reconstructing the data as input matrix of LSTM.

Has found some problems in original data such as no marking and matrix dimension not uniform.

1. Progress

Writing simple LSTM/CNN code for practicing.

Waiting new data and reconstructing it.

2. ToDo

Constructing the LSTM and RNN model and training them.
